

The gift of education is a gift to us all

Give the best gift of all this holiday season

USM students come to college with a dream... to be a nurse, a teacher, a musician, an engineer, an entrepreneur. When they succeed, we all win because our communities are made richer through their talents.

Many students receive scholarships that are funded through donations from generous alumni and friends like you. In this season of giving, please give the gift of education to a deserving USM student.
